DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-7 are rejected under 35 U.S.C. 102(b) as being anticipated by Rekow et al '281.

Rekow et al disclose methods of forming dentures, including the steps of capturing digital information of a patients' oral cavity, adding to the digital information from stored digital data of full dentures, and combining the data so as to produce a new denture. The computer may be used in the actual production of the new denture. Note Rekow et als' use of CAD/CAM.
